This years TRA funds were held back a year, so that we could take two years funds and put them to use on Prescott Road for new construction from Route 111A to the Culvert.

A one and a half inch layer of hot top was applied to a section of Lake Road and Prescott Road this year.

Oil treatment was applied to Scrabble Road from Sanborns Sheet Metal shop to Route 125. A small section of South Road and Lake Road was also oiled.

At this time I would like to thank Robert Webb who donated the use of a chipper and Raymond Evans, Sr. who donated the use of a truck to the Manpower Program..

Respectfully submitted,

REPORT OF LIBRARY TRUSTEES

To the Selectmen and Citizens of Brentwood:

Another year has passed, it is time again for yearly reports.

It has been a very gratifying year. We have had the furnace moved to the back room resulting in a much better heating system, as well as new shelves, outside sign, wall to wall carpeting, new reading table and chairs, shrubs around the driveway installed - all made possible by the Mary E. Bartlett Memorial Fund. The outside of the building has been painted with Manpower supplying the funds for labor and the Town providing the materials.

In May the Library was formally dedicated to Mary E. Bartlett at a well attended ceremony. At that time the shrubs around the sign were donated by Mr. William Bartlett, Jr. in memory of his Father.

The Friends of the Library continue to be very active. They hold monthly story hours and parties for the children. One of the members, Mrs. Linda Johnston, donated a lovely hand-painted table for the childrens' section. With a nice donation from Mr. Cornelius Collins, a telephone has been installed in the Library.

I personally want to thank the Friends for all they have done. Many thanks also to Jane Byrne for mowing and to my husband, Will, for donating his services as janitor.

We have enjoyed seeing many new faces this year coming in for books. We are looking forward to the new faces that 1976 will bring.

REPORT OF THE BRENTWOOD BICENTENNIAL COMMITTEE

In keeping with the requirements of the American Revolutionary Bicentennial Commission, that the Bicentennial Committee be made up of people from each of the town departments and organizations, the Brentwood Bienetennial Committee was formed, and held it's first meeting in August 1975. Because of the overwhelming enthusiasm and cooperation of this committee the requirements of the National Bicentennial organization were met and Brentwood gained recognition as a Bicentennial Community two months later.

The Town received it's flag at a presentation ceremony held October 11, 1975 at the Swasey Central School.

The Bicentennial year kickoff with it's "Heritage to Remember Service" was held July 27, 1975 at the Brentwood Congregational Church. This church played a leading roll in the town receiving it's charter over 200 years ago.

In conjunction with the presentation of the Bicentennial Flag to the Town a turkey supper was served at the Firehouse. Several other activities are planned for 1976. Among them is a nature trail to be developed on Town property, and a stage production by the Brentwood Community Theater under the direction of Miss Carol Walker, to be presented in April. Other Community projects are being planned at this time and it is hoped htat more Townspeople will participate.

The committee is not planning on a Bicentennial Parade at this time due to the great expense of such an undertaking. The Town however will be represented in area town parades with marching units and a float. This is being planned in cooperation with the Grange, Historical Society and many other townspeople.

With the exception of a $100.00 donation from the Brentwood Firemens' Auxiliary and two smaller donations from anonymous donors, the Bicentennial Committee is self supporting, the funds to operate being earned by the committee.

As chairman of the Brentwood Bicentennial Committee I wish to thank the Brentwood Firemens' Association for the use of the hall. The Brentwood School District for the use of the school and the Brentwood Congregational Meeting House for the use of the hall where the Bicentennial Committee meets twice monthly.

I wish to give special thanks to Gladys Metcalf and her committee who prepared and served the turkey supper to 350 people, and Scout leaders Martin Thornton and Roger Crosby and their Troops, who did a fine job serving..

The Certificate designating Brentwood as a Bicentennial Community and the Commerative Bottle which was given to the Town by the Rockingham County Bicentennial Commission are on display at the Mary Bartlett Memorial Library. The Bicentennial Flag is flown each school day along with Ole Glory at the Swasey Central School. At the end of the Bicentennial year the Certificate and the Bottle along with the Flag will become the property of the Brentwood Historical Society.

Once again I wish to thank all the members of the Bicentennial Committee and all the Townspeople who have worked with the Committee.. for their help in celebrating our 200th birthday.

Brentwood School District Report
Superintendent's Report
Frederick B. King

As we enter the nation's Bicentennial celebration there are many accomplishments for which we can feel justly proud. Among these is the vast improvement in the educational program at the Swasey School.

The reading program is well established, and is producing excellent results based on national test scores. Every attempt must be made to insure that every child reads as well as his potential will allow. A strong program of phonics, comprehension, and "study-skills" characterizes the program in Brentwood. With the complete identification of all important skills and the establishment of instructional levels has proven a definite asset to reading improvement.

The "new math" remains fundamentally sound, although the impact hasn't lived up to expectations. Computational skills in arithmetic and algebra are needed but we also must make way for computers and calculators to receive increased emphasis in the future. I think the evidence shows great gains in mathematic insight and understanding by the pupils. This along with our "skills" check sheets at each level should provide for a strong program.

The pendulum seems to be swinging back, as it has a way of doing. Appropriately along with basic education is a renewed interest in stressing good character building as a part of values and humanizing education. I feel the school has responsibility for being a part of the programs to train our children to examine values more carefully.

The maintenance of normal and responsible discipline as a routine, every day basis is still a major focus of this administration. Competent teaching, even handed and intelligent administration along with thoughtfully formulated policies and regulations at the Swasey School and indeed at our AREA Schools are the cornerstones of success to bringing about reasonable student conduct. Establishment of well behaved youngsters who are courteous and respectful is insuring a better citizen as they become young responsible adults.

Children are changing biologically, sociologically, intellectually and in other ways. Research indicates this is a reality. We are constantly searching to improve the content of our programs at all levels to keep up with the demands of the times and the "new" student that is with us. Important as work is preparation for it has not until recently been given the attention it deserves. Elementary school can do much with career awareness. At the secondary levels we look forward to having a complete vocational center to serve the needs of Brentwood's youngsters. Choosing and preparing for a career is not a single decision made "one afternoon", but a process that begins in early childhood and continues well into mature years. The school planning will continue toward the realization of this goal and the

AREA #18 Vocational Center could do much to assist in actual skill training in a wide variety of work fields.

There is much happening at the Swasey School. Mr. Chmielewski in his report has this to say "We at Swasey Central Elementary School have enjoyed a very active and meaningful year. A dedicated and committed staff has directed its full efforts to best serve the needs of our students and the town. This is a constant challenge to us and one which we will continue to meet in the coming year.

Our school has succeeded in developing a true atmosphere for learning. New scholastic programs (Reading and Arithmetic) initiated during the 1973-74 school year are now proving themselves successful as evidenced by student achievement. New English books have given us continuity for teaching that area. The AAAS Science Program was extended to the fifth grade - the program is sequential and will be implemented in the sixth grade next year. Guest speakers, films, and field trips have been utilized to extend student learning. The acceptance of only proper behavior has developed a favorable school attitude in our students.

Once again many in the community gave unselfishly of their time as volunteers in the classrooms and the library. Such assistance not only gives our staff more time to teach but often brings to the student an activity or expertise that otherwise he would not be exposed to. However, we are still continuing to solicit for assistance of volunteers and would welcome suggestions or referrals from anyone able to contribute time to our school.

I would like to express my thanks to the students, staff, Board of Education members, and members of the community who have contributed to the development of quality education at the Swasey Central Elementary School.

There are nine full-time classroom teachers, one full-time classroom aide, two half-time learning aides, plus supportive staff at our school. Total enrollment at Swasey Central Elementary School is 194 students."

In conclusion, as your superintendent, may I reaffirm my pledge to continue my efforts in the constant search to up-grade our schools and make fiscal responsibility a reality in getting "our dollars worth" each day of each educational year.

REPORT OF THE BUSINESS ADMINISTRATOR

DANIEL C. DURGIN

March is a critically important month because it is during the month of March when most of New Hampshires school districts hold their annual town and school meetings. Decisions reached at these meetings often have far reaching implications and decisions of a financial nature always have a direct impact on property taxes.

Speaking specifically of the School District Meeting, perhaps the most important question before the voters each year involves the school budget for the succeeding year. I fear that many people view the budget as a financial document that is only indirectly related to the education of the districts' children. Nothing could be further from the truth. The School Budget, if properly formulated, should represent the educational plan of the School District translated into dollars. The budgeting procedure in all districts of Supervisory Union # 16 is designed with this in mind.

Rather than simply building on the previous year's budget, our process involves what is becoming popularly known as "zero budgeting". This new concept has been the basis for our budgeting process for many years. It requires fresh thinking and careful planning by all staff members and discourages the practice of building on the previous years budget merely because "we have been".

The budgeting process begins in September at the teaching staff level. Budget requests are entered on special forms designed for the purpose and are submitted up through the normal administrative channels where they are screened at each level. All non-routine requests, require written justification outlining such considerations as need for the item or items being requested and what is hoped to be achieved by their purchase. Requests for new programs and/or additional staff are also submitted on special forms which ask for complete justification and require evaluation of the cost versus the educational benefit.

After all educational requests have been carefully reviewed at all levels concluding with the S.U. # 16 Central Office administration, the budget forms are turned over to the Business Administrator for inclusion in the first draft of the proposed budget. The Business Administrator is responsible for drafting the final budget which will include many other costs such as salaries and related expenses (fringe benefits, Social Security, Retirement), insurance, transportation, tuition, utilities and payments on any outstanding debt.

The completed draft of the budget is then presented to the School Board for review, modifications and approval before being presented to the voters for finalization. In some districts, budget committees also play a significant role in the process replacing the School Board as final authority before presentation to the voters.

Although not required by law, each school district in S.U. # 16 holds at least one public hearing on the budget prior to district meeting. This gives the citizens of the district the opportunity to hear the budget explained in detail and to ask questions and offer comments relative to the proposed budget.

Frequently the attendance at these hearings and even the district meetings is poor. These are your meetings and you have a major role to play. Please make every effort to take part in this most important process.

School Nurse Report

I respectfully submit the following report of the School Health Program at Swasey Central Elementary School for the school year 1974-75.

School Health Services at Swasey cover all efforts to conserve, protect and improve the physical, mental and emotional health of the school population. This is accomplished through the following activities and procedures: films, demonstrations and discussions pertaining to health; recognition, referral and follow-up of school adjustment problems; and providing emergency care for the sick and the injured.

Routine procedures conducted throughout the year include the following: a dental clinic held at Dr. Pawlak's office in Exeter; consultations for first grade readiness with Dr. Storm in attendance; testing all students in school for vision and hearing and recording all student's height and weight; instructing classrooms in hygiene and first aid procedures.

I wish to thank everyone for their kind assistance and cooperation in our strivings to continue and improve the School Health Program.
